Question: If you wish to elaborate, please explain your response to Question #1: Instructor displayed an interest in my learning.
Response Rate: No participants responded to this question. (0 of 7)

Faculty: Rose Keith
Question: If you wish to elaborate, please explain your response to Question #3: The instructor created an in-class environment that was conducive to learning.
Response Rate: No participants responded to this question. (0 of 7)

Faculty: Rose Keith
Question: If you wish to elaborate, please explain your response to Question #5: The instructor challenged me with new or unfamiliar ideas.
Response Rate: 14.29% (1 of 7)

1 The first couple weeks of the class were mostly review and then it felt like out of nowhere we were thrown difficult information, and while I understand that it is a 300 level class, it would have been nice to have eased into the more difficult material.

Faculty: Rose Keith
Question: If you wish to elaborate, please explain your response to Question #7: The instructor provided helpful feedback.
Response Rate: No participants responded to this question. (0 of 7)

Faculty: Rose Keith
Question: If you wish to elaborate, please explain your response to Question #9: The instructor provided clear explanations of important ideas.
Response Rate: 14.29% (1 of 7)

1 I thought some things could have been explained in way more detail than they were, there were many times where the whole class was kind of lost in a topic.

Faculty: Rose Keith

Question:	If you wish to elaborate, please explain your response to Question #11: The instructor stimulated my enthusiasm for the subject.
Response Rate:	No participants responded to this question. (0 of 7)

Faculty:	Rose Keith
Question:	If you wish to elaborate, please explain your response to Question #13: The instructor was well prepared.
Response Rate:	No participants responded to this question. (0 of 7)

Faculty:	Rose Keith
Question:	Are there any other comments you would like to add?
Response Rate:	71.43% (5 of 7)

1	There were a lot of topics we learned in this class that I didn't grasp at all when I first learned them in BIO 130, so the way that Professor Keith taught this class really allowed me to understand them this time around. I really enjoyed taking Genetics with her and I hope to take more classes taught by her in the future!
2	Rose is a great professor and incredibly passionate about her subject. She is very open to helping students and setting aside time for them to grasp concepts. I hope she gets the teaching job she interviews for!
3	Probably one of the most thorough professors I have ever had.
4	Overall, I liked the class. I just wish that there were certain concepts that we would've spent more time focused on. It felt like we rushed through a lot of things. I know it is a short 10 weeks, but I think some of the feelings of being rushed could have been helped if we didn't spend a full class period every week talking about a research paper. Even if we had already learned about what happened in the research paper, many were very difficult to understand and instead of discussing about what the paper could be used for we spent a lot of time just going over what exactly happened in the paper.
5	I enjoy the class. I find the discussion challenging because I know that I am not very vocal. However, this course really made me realized that I will need to step up and not feel afraid that I might make a mistake. I especially like the leading discussion part at the end of the class because I gain knowledge in how to understand and communicate this information to the class.
