1 She gave lectures in class and also made us do in class activities which made class very interesting. Her discussions were fun to take part in.
2 After we learned a new subject, we did multiple in-class activities that further helped us practice that subject. This made learning very easy for us! It also helped us remember what we were taught, too.

<b>Question:</b> If you wish to elaborate, please explain your response to Question #7: The instructor provided helpful feedback.
<b>Response Rate:</b> 42.86% (3 of 7)
1 The comments on assignments were immensely helpful in analyzing my work and improving on it. I also liked the fact that Rose was always ready to give feedback when we approached her personally and asked for advice.
2 She gave detailed feedback for every assignment. Her positive feedback encouraged me and negative ones helped me do better in the next assignment.

3 In all of the experiment papers we wrote, Professor Keith provided extremely helpful feedback on how to better our writing.

1	The class material was very well explained but some of the statistical measures took some time to get used to. The handout which allowed us to fill the tests and when to use them was really useful. Maybe give that handout or something similar a bit earlier so that students can have a reference in hand?
2	She was very easy to understand and learn

1	Rose Keith was very helpful in teaching us how to conduct research in biology, and made it fun and interesting too. She provided us with great information, especially guides on which statistical test to use. She was a great professor and I wish she could stay here more than one year!
2	I loved Intro to research and also Genetics last term. It was great having you as a prof for these two terms and I wish you good luck in Maryland!
3	I enjoyed the class very much and the assignments were interesting too. I learned a lot from this one course and the new things I have learned will help me for the rest of the time in college. I would love to take more classes with her, if there is opportunity.
